Il Segno *del* Tempo

Antiques gallery in Brera, Milan — since 1991

Archaeologist Piero Luigi Carboni and architect Pierangelo Marengo have been running their gallery in the heart of Brera, a traditional artists' district in the heart of Milan, since December 1999.

The decision to open a gallery was an immediate consequence. Il Segno del Tempo was born in 1991, and finding its name was not easy. Each object is a sign of its time. And their world is reflected in their unusual gallery, unpredictable, stimulating in a transversal way, for the collector the decorator the child who is always captured by it.
